

The Internet

C20168

40% Project: *Security & Confidentiality*

Guidelines

- You are required to produce a 4 A4 page assignment dealing with issues of security & confidentiality on the Internet.
- The title of the assignment is one of either:
 1. Doing business on The Internet: a golden opportunity but for whom and at what cost?
 2. Shopping on The Internet: how to stay safe while saving money.
 3. Communicating via The Internet: for all its advantages, a recipe for disaster.
- You are advised to locate articles in newspapers & magazines as sources of information, as well as using The Internet.
- The first A4 page is the 'My Own Work' cover page.
- On the fourth page should be a list of documents & web sites from which you either took information or at which you carried out your research. The URLs should be provided. This section is your bibliography and should include a list of any other sources of information you used. It should be extensive to prove that you have read much on the subject. (PS: don't just copy and paste off The Internet; it stands out a mile and gets **no** marks!)
- If newspaper articles are used, include those in the *paper* submission as the scanner is not available yet.
- The middle two pages should contain the text of the assignment. The assignment should break down into:
 1. introduction
 2. discussion
 3. conclusionsections.
- The text should be standard formatted. Use the checklist!
- The deadline for this assignment is: **21/10/2005**

This assignment is worth 40% of the total marks for the module.
