

# The Internet/Communications

C20168/G20001

## 30% Project: *History & Structure of The Internet*

### Guidelines

- You are required to produce a 3 A4 page assignment (approx 1,000 words) entitled:  
*“The lesser-known heroes of computing, communications and the Internet. The story of NAME.”*
- The 1<sup>st</sup> page is a standard cover page..
- We perform many functions and operations on the internet today without thought for how these facilities became available. Many persons and organisations have gone before in the creation of the technologies that now permeate modern life. You have been allocated one such from the list below. Research the biography of the person, or history of the organisation but **primarily** their contribution to communications and the Internet as we know it today. A suitable photograph should be included at the head of the document. The document title should be the name of the chosen person/organisation.

Steve Wozniak	Claude Shannon	Tommy Flowers
Paul Allen	Rear Adm. Grace Hopper	Charles Babbage
Denis Ritchie	Linus Torvalds	Alan Turing

- Don't just copy and paste off the Internet; it stands out a mile and gets no marks!**
- If newspaper articles or websites are referenced these should be clearly identified in the submission as primary/secondary source references.
- The assignment should have clear introduction, discussion, and conclusion sections.
- The text should be standard formatted.
- The completed assignment must be submitted as pdf:  
**<http://treebeard.fachtnaroe.net/~username/theinternet/historyandstructure.pdf>**  
on-line as a well-designed web page at:  
**<http://treebeard.fachtnaroe.net/~username/theinternet/historyandstructure.html>**  
and as paper in Room 15
- The deadline for this assignment is: **02/12/2013 – 13:30.**
- This assignment is for The Internet and Communications modules.

**This assignment is worth:**

**30% of the total marks for The Internet module**

**25% for Communications.**
