

NAME

Test::Harness::Iterator - Internal Test::Harness Iterator

SYNOPSIS

```
use Test::Harness::Iterator;  
my $it = Test::Harness::Iterator->new(\*TEST);  
my $it = Test::Harness::Iterator->new(\@array);  
  
my $line = $it->next;
```

DESCRIPTION**FOR INTERNAL USE ONLY!**

This is a simple iterator wrapper for arrays and filehandles.

new()

Create an iterator.

next()

Iterate through it, of course.
