

Web Authoring - CSS

N22953

Assignment - 30%

Brief:

Create a look-and-feel demonstration page for a specified company. The single page will represent a design solution in terms of appearance as well as navigation that can later be applied to all of a website.

1. CSS should be used to control all formatting elements, and should be externally referenced.
2. A suitable banner graphic for the page should be developed.
3. Select 6 images from clipart or other sources.
4. An appropriate page layout should be chosen.
5. A navigation solution should be included.
6. Use "Lorem Ipsum..." to illustrate how text will look; use h1 and h2 headings as well as p text etc.
7. Ensure your page is correctly linked to from the Web Authoring CSS page on the course website (0 marks will be achieved if not).
8. Validate your CSS & HTML and provide evidence¹ of this.

The company for whom you are creating a demonstration page is:

Harmony Logistics

...who market their services with the slogan:

because delivery isn't optional

...and use predominately blues, reds and whites in their copy.

Develop a one page demonstration of the look and feel for a proposed website for the above named company.

Commence a learner record for this subject and record and document all steps taken and enumerate challenges faced and how resolved. Justify decisions made.

Guidelines:

- Supporting documentation should be in one file.
- A printed copy of the demonstration page (and sources) should be included.
- The assignment should be standard formatted, as appropriate, and use a standard cover sheet.
- The assignment should be submitted using the submission box in Room 15; please ensure the assignment is stamped and dated first.
- Electronic submission is also required.
- Complete and submit by: **15:15, Thursday 15th November 2012.**

¹ Print an extra copy of these and submit to Edmond for Communications.
