The Internet

C20168

40% Project: *Security & Confidentiality*

Guidelines

- You are required to produce a web page, an essay/discussion document, dealing with issues specific to security & confidentiality on the Internet.
- The title of the essay is:

    "Keeping A Family Safe on The Internet"

- Your essay should <u>not</u> be more than 1,000 words (about 2 A4 pages; there is a tool in the word-processor to count words)
- You are advised to locate articles in newspapers & magazines as sources of information, as well as using the Internet, films, documentaries etc.
- There should be a references section at the end, listing books, documents, web sites & other sources from which you either took information or where you carried out your research. URLs must be click-able. (The references will be used to allow others to check any facts that you assert)
- If paper documents are used, scan and include those images *after* the references section in your submission as primary/secondary source references.
- The assignment should break down into:
    - Introduction
    - Discussion
    - Conclusion
- sections. These sections should be clearly indicated.

    --Important--

1. Don't just copy and paste off the Internet; it stands out a mile and gets <u>no</u> marks!
2. You are required to prepare the essay on paper before starting the web-page. Fachtna will give you the go-ahead to progress to the on-line essay when your content is satisfactory.

- Use the standard format stylesheet link in the header:

    ```
    <link rel="stylesheet" type="text/css"
    href="https://www.fachtnaroe.net/standardstyle-2015.css" media="all"/>
    ```

- Save the html document in

    ```
    ~/public_html/theinternet/securityconfidentiality2015.html
    ```

- The deadline for this assignment is: **08/10/2014, 12:45**

This assignment is worth 40% of the total marks for the module.
